

Date/Period
14th-15th Century

Country
Germany

Museum
Victoria & Albert Museum, London.
Dress and Textiles Department, Frame I-8

Catalog Number
7093-1860

"Fragment with rows of human figures. German, 14th Century. Colored silks in brick stitch on linen."
52 threads per inch evenweave

NOTE:

This piece was in the worst shape of all the items I have examined so far. The colors are so badly faded that it is impossible to know what they were originally. Therefore I have not included a color chart. The colors used in this pattern are there to show the color divisions only.
