

Y-013D	A Reliquary Bag			A Stitch Out of Time
Date/Period 14th-15th Century	Country Germany	Museum Museum Schnütgen, Köln, Germany		Catalog Number P 870

On the original the pattern is worked horizontally, This compresses the pattern somewhat left to right.

The long fill stitches (in orange yellow in the photo, and yellow in the bottom right diagram) are done in metallic gold. The museum description refers to this as "metal-wrapped thread" but on close examination of the available photos, it looks like some sort of flat strip. Possibly metal, possibly gilded.
